

Medical Terminology Cardiovascular Disease

angi/o
arteri/o
brad/y—slow
cardi/o
cereb/o
cor—heart
cyan/o—blue
gram/o
hemangl/o
my/o—muscle

orrhex's
phleb/o
scler/o—hard
tach/y—fast
thromb/o—clot
vas/o
varix—swollen vein
vena—vein
xanta/o—yellow

C.V. Diagnostic Terms

aneurysm

arteriosclerosis

atheroma

atherosclerosis

cardiac arrest

cardiac cachexia

cardiomegaly

cerebrovascular accident (CVA)

congestive heart failure

coronary heart disease (CHD)

dyslipidemia

embolism

fatty streaks

homocysteine

hypercholesterolemia

hyperlipoproteinemia

hypertension (HTN)

ischemia

myocardial infarction (MI)

myocarditis

plaque

thrombus

C.V. Symptomatic Terms

angina syndrome; angina pectoris

anoxia

asystole

bradycardia

cardia edema

claudication

ischemia

 cerebral

 myocardial

palpitation

systole

tachycardia

vasoconstriction

vasodepression

xanthoma
